

Designer: SCENE SHANG

A versatile piece inspired by the brand's best-selling drum stools, in a pouf size. Great as spare seating, an ottoman, or a coffee table. On top of that, this pouf comes with a detachable lid so that you can use it for storage.

Hand-made by skilled artisans using sustainable materials - 100% recyclable, woven synthetic fiber and aluminum frames, and finished with our signature solid brass handles for that heritage touch that will patina with time. The synthetic woven fibers are comfortable, hard-wearing, UV-treated, and waterproof, making these poufs suitable to be placed both indoors or outdoors.
