

**Designer: SARNSARD**

A part of the Miti Collection, the Pri-Sna Wall Art is a modular display system that brings the traditional "Dok-Chan" or asterisk pattern to the contemporary sphere. The colors of the artwork - red, orange, and black - are inspired by the shades of twilight merging into darkness to evoke a sense of enchantment in the viewer. The versatile nature of the object allows you to play with formations and bring your own creativity into the design.
