Fasce, which means terraces, represents the landscape of the Liguria region in Italy. In Liguria, the land is limited and to maximise it for agricultural purposes, they build terraces on the hills to cultivate olive trees and vineyards. The Fasce Bottle Sculptural Vase is made by hand with those terraces in mind.

The vase is made of stoneware clay added to firesand for a medium or high rough textured surface. The piece has a matte surface, and is raw and unglazed. The stoneware fires on a slow burning curve at different temperatures to allow the natural color to come out. The vase is watertight and can be used for minimal floral arrangements or as a sculptural element.
