

**Designer: LIAOCAO**

The name Kwords means one thousand words. The Kwords Cup depicts only one of the thousand Chinese characters but represents the astronomical significance the Chinese alphabet has on culture, society, and geography. The design is simple yet profound. It is a dedication to the medium of enlightenment and education. It is literature in hand, quite literally.

The four characters in this set represent fortune (*fu*), prosperity (*luk*), longevity (*shou*), double happiness (*xi*).
