

Designer: BOTANIC PRETTI5

Hydro-Power Brightening Cleanser is a "sugar detox" for the skin that slows down glycation for all carbs and dessert lovers.

A foaming face wash that effectively purifies the skin and helps combat blackheads, without ever stripping the skin of its natural tightening. Thanks to natural and botanical ingredients such as Japanese apricot, rosehip oil, and sea kelp extract, the cleanser also helps brighten the skin tone and slow down glycation, a process that leads to dullness and premature aging.

Dimensions: L4.1 x W6 x H16.5 cm
