

**Designer: BOTANIC PRETTI5**

The Antioxidant Hydrating Toning Essence is a deeply hydrating toner that combines traditional herbal wisdom with skincare science.

With a light and airy scent, the toning essence harnesses the power of provitamin B5 and alpha-glucan oligosaccharide to support the skin's natural pH.

Infused with traditional Chinese medicinal ingredients, such as gold flower root and snow mushroom extracts, in tandem with aloe vera, the toning essence helps to deliver hydration to the deepest levels of the skin. The toning essence effectively enhances penetrating abilities and activates the hydration power of your skincare routine.
