

**Designer: ATINYMAKER**

The Rattan Wrapped Ceramic Pot is part of a series of vases, functional accessories, and vessels titled "Rattan Combinations". The series consists of a body of works that explore rattan in combination with other natural materials. The combination of techniques picked up over the course of the research by the creator manifest into further tangible forms as a visual and tactile investigation into rattan.

The Rattan Wrapped Ceramic Pot is a statement piece that induces nostalgia while being comfortably at home in a modern setting.

Dimensions: W35 x H40 cm
