

Designer: BAMBUHAY

The Bamboo Straw is biodegradable, reusable, compostable, and 100% organic.

It has natural anti-bacterial properties and has undergone independent laboratory Microbial Load Determination tests confirming the absence of aerobic microbial contaminants (molds). Drinking through a bamboo straw reduces the risk of long-term teeth damage - sugars and acids are sucked past the teeth!

Dimensions: L20 x W11 x H1 cm

Primary Material: Bamboo

Primary Color: Natural

Customization: This product is not customizable.
