

**Designer: ARTICLE LOG**

The Desert Vase was inspired from the dryness of the vast desert and its sedimentary layers formed by the wind. The rough texture, made by scraping rocks against the material, and the dry surface of the vase is reminiscent of the desert.

All vases in the Desert series are functional and can be used to hold greenery or flowers in water if desired.

This product is handcrafted.

Dimensions: Diameter 18 x H20 cm

Primary Material: Ceramics

Available Variants: Primary Color:
(Brown, Cream)

Customization: This product is not customizable.
