

**Designer: JULIE & JESSE**

This edition of Fragment(s) series is a library of 24 porcelain bottles - all unique yet similar. The shapes chronicle the history, breakage and decay of distressed ceramic production moulds the duo collected at an abandoned bottle production facility in Jingtao Cichang, an old factory area of Jingdezhen, city known as the Chinese capital of porcelain. Julie & Jesse have cast new pieces from these old molds to reveal the beauty and poetics in their physical deterioration, to celebrate what would otherwise be discarded.

Dimensions: L12 x W13 x H20.5 cm per vessel

Note: This series ships in a wood crate, please make sure to select the wood crate during checkout. Wood crates are not for sale without a prior product selection.

Please contact cs@vermillionlifestyle.com for large order lead time and customization.

Primary Material: Porcelain**Primary Color:** White**Available Variants:**

Customization: Julie & Jesse can make a new series of Fragment(s) - The Bottle Edition. Shape and size will not be negotiable as each series is unique and dependent on the distressed production

mold collected at the abandoned factory in Jingdezhen. The color of the fragment can be discussed with the client but Julie & Jesse will have final say so that the concept of the work is not denatured.
