

Designer: DAP CONCRETE CRAFTS

Terrazzo is made by combining a cement base (sand, water, and cement) with a mixture of ground minerals - like marble, granite, and quartz - and can be applied to almost any surface, vertical or horizontal.

The Terrazzo Coasters are made by hand, each with their own individual identity and characteristics.

Dimensions: L11 x W11 x H2.5 cm

Primary Material: Concrete

Primary Color: Multicolor

Customization: Color can be customized.
