

Designer: DAP CONCRETE CRAFTS

Terrazzo is made by combining a cement base (sand, water, and cement) with a mixture of ground minerals - like marble, granite, and quartz - and can be applied to almost any surface, vertical or horizontal.

The Terrazzo Tray is made by hand, each with its own individual identity and characteristics. The tray may be used to serve food or snacks.

Dimensions: L22 x W15 x H2.5 cm

Primary Material: Concrete

Primary Color: Multicolor

Customization: Color can be customized.
