

Designer: ANNETTE

The linen bedding by Annette invites you to indulge in its beauty and simplicity.

The linen bolster cases are put through a delicate stonewashing process. The results are bolster cases which drape beautifully, are soft and luxurious to touch, and have a charming fade to the color.

The fabric is breathable, gentle against the skin, and cool to touch, which makes these bolster cases perfect for the warmer nights, and a luxury to sleep on. The best part is that linen is known to age gracefully and only get softer and better over time with use.
