

**Designer: STUDIO KAE**

The design of the Lunar Cup pays homage to the dynamic interactions between light and dark when the moon is out and the stars are shining. Each piece explores the tactile nature of light as it appears to us on ceramics, glazed in an array of hues.

By applying gradual spraying of color glaze, rather than the divergent halo, the light and colors come alive - creating a delightful experience for the senses that awakens the soul.

Dimensions: W6 x H10 cm
