

**Designer: KANJIAN**

This ceramic tumbler set includes 1 wine carafe and 4 tumblers. The tumblers are produced using a slip casting method which is then perfected by hand, and employed with Yingqing glaze from Jingdezhen, which gives them a bright and elegant aesthetic. Each tumbler is of a different shape, including a circle, a square, a peach and a begonia, all of which are inspired by the windows of traditional Chinese gardens, and are symbols for auspiciousness.

This tumbler set is designed for drinking with friends at a gathering, or simply enjoying by yourself under the moonlight.
