

**Designer: KANJIAN**

KANJIAN's Ceramic Vase is made of white porcelain clay with swirls of burnt umber clay using the twisting technique originated from Tang Dynasty. The design is simple, yet elegant.

Each vase is handmade by craftsmen from Jingdezhen, producing a slightly different pattern that is unique each time. The vase is fired at a high temperature of over 1,300°C after it has been molded, and the body is delicately polished before it is glazed to reduce any roughness or granular sensations.

Dimensions: L11 x W11 x H28 cm
