

**Designer: QIN**

Every Qin object is designed for use in the study while practicing calligraphy. The water container is typically used by the calligrapher to dip their brushes in water for rinsing.

The process of glass making is full of unknowns, especially when the glass is fired at high temperatures, so each piece of glass object produced is unique, resonating with the traditional scholarly pursuit of 'Man and Nature in one'.

Dimensions: L7.5 x W11.5 x H2 cm

Note: This is a collectible item and usually displayed in museums.

Primary Material: Glass

Primary Color: Black

Customization: This product is not customizable.
