

**Designer: CAMEL**

This is a double-layered glass vacuum flask that can retain temperatures efficiently. The flask has a stainless steel outer shell and lid while the inner wall is made of non-toxic glass. The highly reflective surface is achieved by the deposition of pure silver on the vacuum side of the glass inner. It will never touch the contents in a normal flask.

The 450ml highly durable flask is compact and easy to clean.

Dimensions: L8 x W8 x H23.6 cm

Primary Material: Glass

Primary Color: Gold

Available Variants:

Customization: This product is not customizable.
