

Designer: GRADO

Winner of the China Kapok Design Supreme Award in 2018, this Mood Screen has a simple geometric form and modular function. It can be used as a wall hanging as well as a room divider.

The Mood Screen is made of PET, a thermoplastic polymer resin of the polyester family. It is heat-insulated, flame-retardant, harmless, and 100% recyclable. The arc surface of the screen can absorb sound waves from different directions to achieve a soundproofing effect.

Dimensions:

Small: Diameter 600 x H25 cm

Medium: Diameter 900 x H25 cm

Primary Material: Brass

Primary Color: Gray

Available Variants: Product Size:
(Small, Medium)

Customization: This product is not customizable.
