

**Designer: SELVAAGE**

SELVAAGE products are designed based on a foundation of green thinking and with the purpose of inspiring the outdoor adventurous side in everyone.

Edgy and lightweight packable, this wind-stopper jacket is made using 100% recycled nylon scraps from post-consumer waste. It features a metallic iridescent texture, water-repellent YKK zippers, an air vent zip opening with a mesh insert, and a back zipper for packable function. Once packed the jacket can be easily carried on as a bag.

Size Guide: [Click here for size chart.](#)

Primary Material: Nylon

Primary Color: White

Available Variants:

Customization: Customizable upon an order with MOQ of 100 units. Can be a special color request (with limitations), an additional logo, or a special feature. For an order of lower quantities, there may be room for a small printed or embroidered feature, e.g. logo or message.
