

**Designer: PHILUX**

The Oslo Night Table is a clean-lined bedroom staple defined by a refined restraint in design, accented by simple details.

This is a piece from Philux's Scandinavia Collection, a merging of design languages from Scandinavia and Filipiniana.

The Scandinavian design philosophy originated in 1950's Northern Europe, which saw a movement that bespoke simplicity, minimalism, and functionality in design. These progressively minimalist designs required much in-depth research and development and demanded the work of highly skilled craftsmen that focus on the core, but very delicate, essentials of a design piece: form and function. Combine this with Filipiniana, the heart and soul of Filipino art, history, and literature, together with the natural materials and local craftsmanship techniques of the Philippines.

With this collection, Philux aims to deliver the full spirit of the Scandinavian design philosophy combined with Filipino passion and craftsmanship. The results: functional and minimalist designs, which preserve and emphasize the natural beauty of wood, the material Philux has honored and mastered for over 40 years.

Dimensions: L50 x W40 x H64.5 cm

Primary Material: Wood

Primary Color: Brown

Customization: This product is not customizable.
