

Designer: KITT.TA.KHON

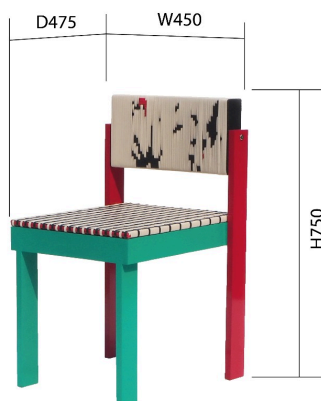

Fat Boy is a project where Kitt.Ta.Khon questions the concept of “sufficiency” in craft production. For this series of chairs, hand-weaving techniques and patterns are deconstructed into pixels for easier communication and execution of ideas for the craftsman in charge. The chair is made of natural rubber wood that is painted on, and decorated with various pattern of polypropylene strips.

Available in 3 patterns: Checkered, Painted, Text

Dimensions: L45 x W47 x H75 cm

 KITT-TA-KHON

FAT BOY
(Painted pattern)
