

**Designer: LIANG MU**

An extension of the Blue Dye Tableware range's concept of using traditional flower rims, the Blue Dye Flower-Rimmed Fish Plate has swirling outer contours accentuated by a hand-painted blue dye gradient.

The stretched oval shape of this plate makes it suitable for serving a whole fish.

The bone powder content for each item is 43%, which far exceeds the international bone china standards.

Dimensions: L30.8 x W19.3 x H2.9 cm

Primary Material: Bone China**Primary Color:** White**Customization:** Color of tinted sections can be customized.

Size and general shape cannot be changed.
