

**Designer: LIANG MU**

Inspired by the candlesticks from Ancient China, the Season Vase has a large, open mouth that resembles a flower being held by both hands, as it hopes to revive the modern experience of tactile contact with the object by creating a traditional yet casual sense of ritual. While the content of the vase constantly comes and goes, the 12-sided shape of the vase symbolizes the inevitable passage of time and reminds us of the different stages of life.

Dimensions: D11.7 x W5.8 x H24.5 cm

Primary Material: Cement
