

**Designer: SUMPHAT GALLERY**

Khing stool represents the tropical forest. The brass legs are casted in the form of a tree while the seat is woven in liana which is a woody vine often seen as an unwanted material from the forest used to support the tension load. The rustic feeling and natural texture of the Khing stool adds a warm feeling to any living space.

Each item is made to order and handmade by a specific individual artisan.

**Dimensions:**

Low: L45 x W35 x H42 cm

High: L45 x W35 x H72 cm

*Note: If your total order from Sumphat Gallery results in packaging that is **larger than 1 cubic meter**, they will need to use a crate to pack the products together for a **packaging fee of US\$195**. Vermillion's Client Services team will contact you should this be applicable to your order.*
