

**Designer: SUMPHAT GALLERY**

The Bakfeong stool reflects the culture and material from traditional Thai furniture but updated for modern decoration. Its design is similar to the 6 V-shaped facets of a Starfruit. This cutting pattern is designed taking into consideration the constraints of the reed material which is made with a small loom.

Each item is made to order and handmade by a specific individual artisan.

Dimensions: L63 x W63 x H36 cm

*Note: If your total order from Sumphat Gallery results in packaging that is **larger than 1 cubic meter**, they will need to use a crate to pack the products together for a **packaging fee of US\$195**. Vermillion's Client Services team will contact you should this be applicable to your order.*
